Although eFiling is mandatory in some courts, ***you are NOT required to perform the transaction yourself***. First Legal has the ability and experience to eFile on your behalf in ***every*** court where eFiling is accepted. With the most comprehensive eFiling program in the industry, you can be sure that our team will provide excellence in service and quality.

Not sure if a court requires a document to be eFiled? Just email the document to efiling@firstlegal.com and we'll handle the rest. If a document can be eFiled, we'll process it accordingly, if not, we'll print the document and deliver to the court as a standard filing (also called a PDF Filing Service).

Our Customer Service Representatives are available to help you through the process.
